Tip Sheet

Creating PowerPlan Order Favorite

as of 19 Oct 2018

All patient person data used within MHS GENESIS training materials and associated courseware is fictional. Therefore, no protected health information (PHI) or personally identifiable information (PII) is contained within these materials and associated courseware.
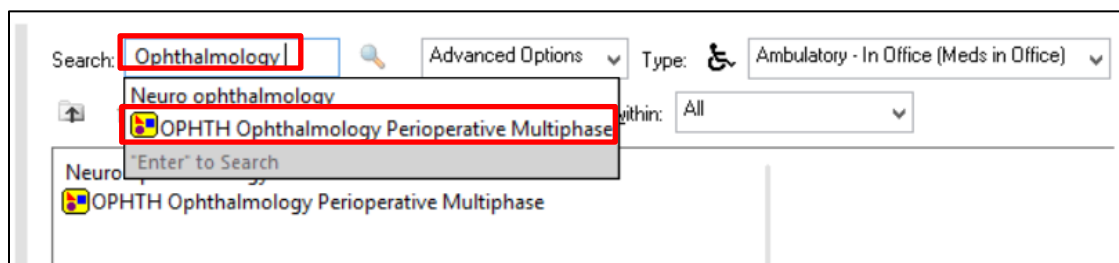

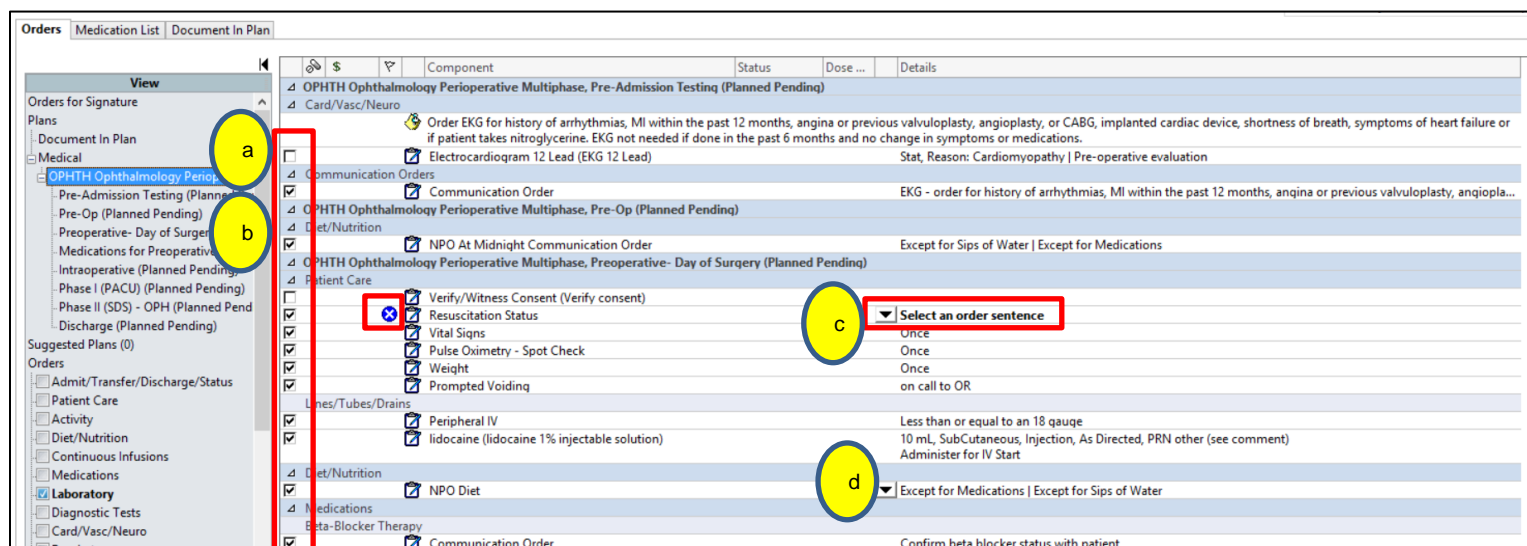

OVERVIEW

PowerPlan Order Favorite

PowerPlan Order Favorites

(Note: PowerPlans can also be shared from Personalized Favorites; see "Shared_Order_Favorites" Tip Sheet)

1. Search in **Quick Orders** or in **Orders** Module **Add ✚**
2. Search for and select desired PowerPlan and select **Done**

3. Modify PowerPlan as desired

   a. Select boxes as desired,
   b. unselect as desired,
   c. fill out for Required ⊗ ,
   d. modify selected sentence in drop downs
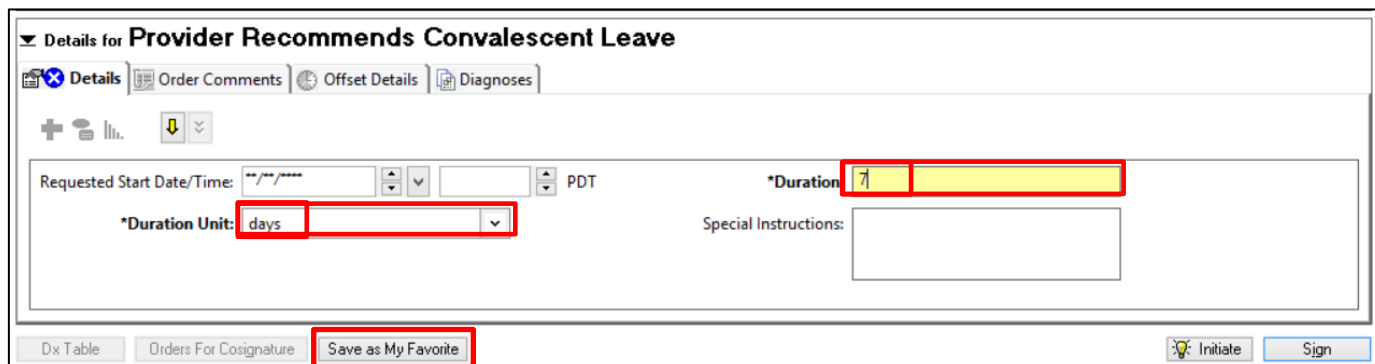

PowerPlan Order Favorite

4. Add Orders to PowerPlan by selecting phase as desired and select **Add to Phase**, **Add Order,** search for order, select, **Done**

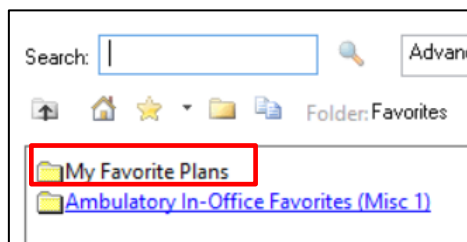

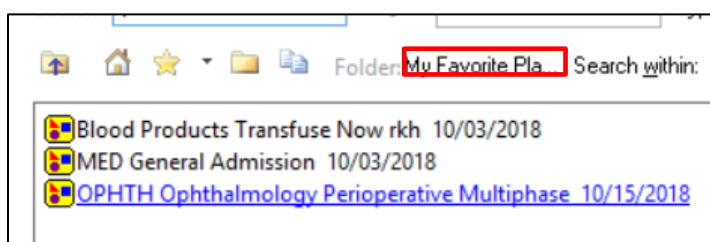

example: add convalescent leave to discharge phase of PowerPlan

5. Fill out default data as desired on order and **Save as My Favorite** (example: caonvalescent default Days, 7)

6. Favorite PowerPlans are now located in **My Favorite Plans** when ordering in **Provider Workflow** or in **Quick Orders**

Note: **Sign** vs. **Initiate** on PowerPlans

1. The Provider should **Order** and **Sign** the Orders for all Phases of Care. In most cases, the RN will **Initiate** PowerPlans at each phase of care
